How to fill a Mastatest® cartridge

Mastatest

1. 
Put on clean gloves and remove cartridge from pack.

2. 
Remove cartridge lid, placing it on its flat back.

Half-fill cartridge with milk.

3. 
Pour off surplus milk and discard.

4. 
Press lid on firmly. Label with sample ID.

5. 
Tap firmly 2-3 times.

6. 
Place in Lapbox with arrows to the back, and replace lid.

Start test.

Repeat steps 2 and 3 using the second milk sample, if you are starting a Twin (2 sample) test.
