

## Corey Hodorff

Owner\Manager

Second Look Holsteins LLC – herd of 1400

Wisconsin, USA

“

**Mastatest is easy to use and we now know what bacteria is the most prevalent in our herd so we can take steps to make our herd more healthy and profitable.**

### What was your previous approach to mastitis testing and treatment on farm?

Our previous approach was just a blanket treatment. We treated all mastitis cases the same and treated with the same treatment protocol.

### Why did you choose to introduce Mastatest?

We wanted to look at ways to decrease our antibiotic usage on our farm.

### What has been the feedback of the team members using Mastatest?

They were amazed at how easy it was to use, and how much valuable information we received from a sample.

### What have been the benefits for your farm?

Mastatest has changed the way that we treat our mastitis cases making us more efficient, reducing our antibiotic usage, and increasing production by reducing time spent in the hospital pen.
